EDUCATION

National Institute of Information Technology (NIIT)

Full Stack Development with GenAI

2024 - 2025

- Learning front-end and back-end technologies, including HTML, CSS, JavaScript, React.js, Node.js, Java, and MySQL.
- Developing dynamic, responsive web applications and APIs with hands-on projects.
- Building real-world applications to strengthen problem-solving and coding skills.

National Institute of Technology Arunachal Pradesh

VLSI Design and Embedded Systems

2021 - 2023

- Specialized in VLSI and embedded systems, gaining hands-on experience with FPGA programming, ASIC design, and industry-standard tools like Cadence and Xilinx.

Electronics and Communication Engineering

2016 - 2020

- Built a strong foundation in electronics, communication systems, and embedded technologies, with exposure to programming in C, Python, and SQL.

SKILLS

- **Backend Technologies:** Node.js
- **Programming Languages:** JavaScript, Java, Python, SQL
- **Web Technologies:** HTML, CSS, Bootstrap, React.js
- **Databases:** MySQL, PostgreSQL
- **Tools:** VS Code, IntelliJ IDEA, Postman, Git, GitHub

PROJECTS

DigiDelights (Vanilla JavaScript, HTML, CSS)

- Created a responsive website fetching number trivia from the Numbers API.
- Implemented a feature to save favorite trivia in JSON format using a local API.

Pizza Ordering System (Java)

- Developed a Java-based pizza ordering application with an interactive user interface.
- Implemented functionalities such as order customization and billing.

EXPERIENCE

Electronics Corporation of India Limited(ECIL)

Intern

June 2019 - July 2019

- Developed and implemented Verilog code for a Field Programmable Gate Array (FPGA) based Electronic Voting Machine (EVM) during internship.

Bharat Sanchar Nigam Limited(BSNL)

Intern

June 2018 - July 2018

- Acquired hands-on experience and practical insights into telecommunications technologies during vocational training.
